

JUNIOR RESEARCHER MENTORING PROGRAMME 2022

Code:	JRMP2022_10
School / Department:	Department of Aeronautical and Aviation Engineering
Name of Research Leader:	Dr Gangyan Xu, Assistant Professor
Research Topic:	Airport Operations during the Pandemic
Short Description of the Research Project:	<p>COVID-19 has dramatically changed the landscape of the air transport system since 2020. Understanding how the air transport system suffered, adapted, and recovered during the pandemic could provide implications for future crises.</p> <p>In this project, participating students will investigate the impact of COVID-19 on airport operations based on various data and reports. After that, they are expected to analyze the airport operations using specific performance indicators during the pandemic, and design innovative solutions to cope with the new normality in the post-pandemic era.</p>
No. of Places Offered:	3
Frequency of Meetings:	Bi-weekly
