

Faculty / School:	Faculty of Health and Social Sciences (FHSS)
Short Description of the attachment programme:	<p>The Faculty of Health and Social Sciences of PolyU has evolved from the Institute of Medical and Health Care which was established in 1977. The academic and professional expertise covered by the Faculty includes Applied Social Sciences (social policy and social work), Health Technology and Informatics (medical laboratory science and radiography), Rehabilitation Sciences (physiotherapy and occupational therapy), Nursing and Optometry.</p> <p>The 1-Day program aims to provide the participating students with a comprehensive introduction to the Faculty's teaching facilities and a diverse range of interactive clinical experience activities. These activities, including workshops, demonstrations, and visits, will be led by experts from FHSS's five constituent departments and schools.</p> <p>For more information on our Faculty, programmes and courses, please visit www.polyu.edu.hk/fhss</p>
