

Faculty / School:	Faculty of Science (FS)
Short Description of the attachment programme:	<p>Teaming up with the Faculty of Construction and Environment (FCE), the Faculty of Science will be organising a series of engaging activities for the participating students. These activities are designed to provide the participants with a glimpse into the vibrant student life at PolyU.</p> <p>The four constituent Departments of FS, including the Department of Applied Biology and Chemical Technology (ABCT), the Department of Applied Mathematics (AMA), the Department of Applied Physics (AP), and the Department of Food Science and Nutrition (FSN), will be offering guided tours and workshops, during which participating students will have the opportunity to explore our state-of-the-art teaching and learning facilities. This will provide them with a deeper understanding of the unique aspects of our programme curriculum. The participating students will engage in practical, hands-on session to conduct experiments and lab works to know more about our research facilities.</p> <p>Additionally, the Faculty will host a student sharing session. This will allow participating students to interact with our current students, gaining insights into their fruitful life studying Science at PolyU. They will also learn about the resources available to our students, helping them to discover their interests and explore the study options available at FS.</p>
Special Requirement(s):	Nil
