# The Hong Kong Polytechnic University

# **Subject Description Form**

Please read the notes at the end of the table carefully before completing the form.

Subject Code	APSS1BN18						
Subject Title	From Gloom to Bloom : Global New Urbanism						
Credit Value	3						
Level	1						
GUR Requirements Intended to Fulfill	This subject intends to fulfill the following requirement(s):         Healthy Lifestyle         AI and Data Analytics (AIDA)         Innovation and Entrepreneurship (IE)         Languages and Communication Requirement (LCR)         Leadership Education and Development (LEAD)         Service-Learning         Cluster-Area Requirement (CAR)         Human Nature, Relations and Development [CAR A]         Science, Technology and Environment [CAR D]         Chinese History and Culture [CAR M]         Cultures, Organizations, Societies and Globalization [CAR N]         China-Study Requirement         Yes or       No         Writing and Reading Requirements         English or       Chinese						
Pre-requisite / Co- requisite/ Exclusion	Subject Exclusion : APSS1B18						
Assessment Methods	100%ContinuousAssessmentTerm PaperSeminar PresentationField Visits and Reflection• The grade is calculat assigned;	Individual Assessment 50% 15% 10% ted according to the	Group Assessment 15% 10% percentage				

Objectives	<ul> <li>The completion and submission of all component assignments are required for passing the subject; and</li> <li>Student must pass all component(s) if he/she is to pass the subject.</li> <li>Specific objectives of the subject: <ol> <li>To introduce students to the changing trajectories in urban settlement from unlimited growth to social and environmental sustainability;</li> <li>To explore the relationships between economic changes and urban forms, urban problems and sustainability;</li> <li>To scrutinize global and local practices of eco-city development;</li> <li>To investigate how policies can assist planning for future green cities in local and international contexts.</li> </ol> </li> </ul>
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a) identify problems in traditional urban cities and appreciate
(Note 1)	<ul> <li>new urban forms in multi-disciplinary and comparative perspectives;</li> <li>b) demonstrate key principles and best practices of new sustainable urbanism in global and local contexts;</li> <li>c) ascertain strategies of practical actions for implementing and maintaining green living in new urban modes;</li> <li>d) acknowledge appropriate policies for development of sustainable urban forms and consolidate strategies for life-long learning strategies.</li> </ul>
Subject Synopsis/ Indicative Syllabus (Note 2)	<ul> <li>The subject investigates:</li> <li>1. Traditional urban development: industrialization, differentiation and divisions <ul> <li>Industrialization and urban development</li> <li>Settlement patterns and social relations</li> <li>Lifestyles, identity and power</li> </ul> </li> <li>2. Decay, mobilities and renewal <ul> <li>Economy, class and urban forms: segregation, ghettos, and suburbia</li> <li>Migration, production and urban culture: population flows, fringe city and urban conflicts</li> <li>Urban revitalization and regeneration: from neighborhood of poverty to gentrification and urban renaissance</li> </ul> </li> </ul>
	<ul> <li>3. New urbanism: transformation of mega-city to eco-city</li> <li>New urban forms: emerging visions of eco-city</li> <li>Urban connectivity, cultural diversity and transformative landscapes</li> </ul>

	• Policies and planning for sustainable communities, solidarity and space							
	<ul> <li>4. Practices of new urbanism: international and local possibilities of green living</li> <li>Urban altruism, green economy, local food systems, neighborhoods, affordable housing,</li> <li>Green living: clean energy, social ecology, urban pluralism and diversity, politics and policies</li> </ul>							
	<ul> <li>5. From gloom to bloom: new urbanism and the good life</li> <li>The big reset: transition to global new urbanism</li> <li>Place, space and the good life</li> <li>Reality check: wealth, health and everyday life</li> </ul>							
<b>Teaching/Learning</b> <b>Methodology</b> (Note 3)	Interactive lectures and will be used to introduce to students the theoretical concepts and framework for understanding the origin and development of urban forms in the world. Field visits to local communities, workshops and seminars, however, will be staged to allow students to explore possibilities of alternative urban forms and urban living. Their learning will be further consolidated by presentation of group projects, discussions and reflections in class. Guest lecturers will be invited to illustrate particular case studies when appropriate.							
	be required to attend a series of short online lectures organized by ELC to strengthen their English writing skills. To enable students to meet the "ER" requirement, students will receive an online study package of aimed at enhancing their reading skills. They are also expected to study the prescribed readings on the Reading List below and to complete a written assignment designed to assess their reading abilities.							
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks%Intended subject learning outcomes to be assessed (Please tick as appropriate)							
(Note 4)			а	b	c	d

## Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon completion of the subject. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

### Note 2: Subject Synopsis/ Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time over-crowding of the syllabus should be avoided.

### Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

### Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method purports to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
