

Department of Building and Real Estate: Overview

(2024/25 Cohort)

INTRODUCTION

The Department of Building and Real Estate (BRE) is committed to pursuing excellence through our innovative education, application-oriented research and strong global connections.

As a department, our roots go back to 1937. Under our current identity as the Department of Building and Real Estate, we have become internationally recognized as a leader in providing a wide range of undergraduate and postgraduate programmes which nurture well-rounded graduates for the building and real estate industry.

We are the pioneer in embracing a wide selection of comprehensive components in our programmes. Students are enabled to develop in their professional competences, and also their proficiency in generic intellectual skills, both of which are essential to their future success in the challenging world of construction and real estate, as well as in other domains. Our programmes are recognized and accredited by international and local professional bodies.

Our international multi-disciplinary academic and teaching staff, with expertise in surveying, engineering, town planning, building technology, real estate, finance, law and economics, is actively participating in a wide variety of high-quality application-oriented research projects and consultancies that contribute to developing and sustaining our built environment. We are recognized internationally for our research strengths in our main fields of knowledge.

We maintain strong bonds with industry and frequently host public lectures and seminars for knowledge transfer and networking. In addition, we have close links with our BRE alumni, many of whom are senior staff of government departments, or at director and CEO levels in leading consultancy practices, and private enterprises.

PolyU is ranked the 22nd in the subject 'Engineering - Civil & Structural' and the 16th in the subject 'Architecture/Built Environment' by QS World University Rankings by Subject 2023, the 3rd in the subject 'Architecture' and the 4th in the subject 'Civil Engineering' by the University Ranking by Academic Performance (URAP) 2022-23.

With our dedication to excellence, we aim to equip you with a long-term employability and a self-learning competency to excel in a rapidly evolving sustainable built environment.

Join BRE now!

OUR PROGRAMMES

PhD/MPhil programmes

We offer PhD/MPhil in a wide range of areas relevant to the building and real estate fields, including but not limited to the following:

- Information and Construction Technology
- Construction and Real Estate Economics
- Urban Sustainability Policy
- Construction and Real Estate Management

Doctorate programme

- Doctor of International Real Estate and Construction

MSc programmes

- Master of Science in Construction and Real Estate
- Master of Science in Construction Law and Dispute Resolution
- Master of Science in Intelligent Construction
- Master of Science in Project Management
- Master of Science in International Real Estate - Zhejiang

BSc (Hons) programmes

Bachelor of Science (Honours) Scheme in Building and Real Estate (JUPAS Code: JS3100)

Students of the BRE Scheme may choose one from the following three programmes after their year-one studies.

- Bachelor of Science (Honours) in Building Engineering and Management*
- Bachelor of Science (Honours) in Property Management*
- Bachelor of Science (Honours) in Surveying

**Secondary Major options are available.*

Bachelor of Science (Honours) Scheme in Building and Real Estate (BRE)

建築及房地產(榮譽)理學士組合課程 (Programme Code: JS3100)

SCHEME AIMS

The aim of the BRE Scheme is to provide an academic platform for developing students' knowledge, skills, and abilities in the fields of building and real estate through experience of real-world methods and practices. Graduates possess intellectual, vocational, and practical skills relevant to building and real estate and demonstrate independent thinking, curiosity, confidence, and professionalism.

FEATURES

Discipline :	Construction and Environment
Mode of Study :	Full-time
Normal Duration :	4 years

Credits Required for Graduation (Single Major) :
123 (including 121 academic credits plus 2 training credits)

CURRICULUM

- ▶ **Year 1:** In the common first year of the BRE Scheme, students are introduced to basic knowledge and the latest issues of the construction and real estate industry.
- ▶ **Year 2:** The curriculum covers the disciplines of economics and finance, law, technology, building engineering, real estate, property management, and housing and facilities management.
- ▶ **Year 3 and 4:** The curriculum focuses on problem identification, problem solving, and decision making in the key areas addressed by the programme.

Students of the BRE Scheme may choose one from the following three programmes after their year-one studies. Details of the programme selection criteria are ready on BRE website (www.polyu.edu.hk/bre). Also, students are awarded one of the following titles on meeting the graduation requirements of the programmes concerned.

- **BSc (Hons) in Building Engineering and Management***
- **BSc (Hons) in Property Management***
- **BSc (Hons) in Surveying**

*Secondary Major options are available.

GENERAL ENTRANCE REQUIREMENTS (for JUPAS Applicants)

Level 3: English Language and Chinese Language
Level 2: Mathematics
Level 3: Any two elective subjects or any one elective subject and Mathematics Extended Module 1 or 2
Attained: Citizenship and Social Development

PREFERRED SUBJECTS

Nil

APPLICATION

On the basis of HKDSE results, JUPAS applicants may apply to this programme via JUPAS website at www.jupas.edu.hk

Non-JUPAS applicants may apply for admission via the on-line application system at the Study@PolyU website: www.polyu.edu.hk/study

SCHOLARSHIP

Entry Scholarships are available for applicants. Details are ready on <https://www.polyu.edu.hk/bre/>

UNDERGRADUATE SCHEME CHAIRMAN

Dr Esther YUNG

Entry Scholarships for Outstanding Applicants (2024/25 Cohort)

In recognition of academic excellence, our Department is delighted to offer generous **entry scholarships** to outstanding applicants for our BSc (Hons) Scheme in Building and Real Estate (JS3100) for the 2024/25 cohort. This aims to reward your success in the Hong Kong Diploma of Secondary Education (HKDSE).

The entry scholarships include :

- 1) Ng Wing Hong Entry Scholarship
- 2) China Real Estate Chamber of Commerce Hong Kong and International Chapter Scholarship

High-performing applicants will have the opportunity to receive an entry scholarship with a **maximum of HK\$10,000**. Also, a **wide range of scholarships** will be available for **outstanding students** throughout their 4-year studies.

Academic Year 2022/23 :

Over the past academic year, our Department handled a wide range of scholarships amounting to **around HK\$1 million for the outstanding students** of our degree programmes. Also, there are entry and post-entry scholarships as well as prizes offered by PolyU, HKSAR Government and donors on the basis of academic merits or non-academic achievements, from HK\$1,000 to HK\$115,200 each for 2022/23. The financial support successfully inspired our students and made a profound impact on their growth. We sincerely thank all donors for their generosity.

We look forward to welcoming you in the next academic year!

Undergraduate Scheme Chairman:

Dr Esther YUNG

BSc (Hons) in Building Engineering and Management

建築工程及管理學(榮譽)理學士學位

PROGRAMME AIMS

This programme provides students with a rich education in building engineering and construction management. Graduates are in great demand in the professional building and construction management sectors because they are well prepared to adapt to the changing needs of the construction industry and possess the expertise necessary to plan, coordinate, supervise, and control the complex process of building projects.

Students of the BRE Scheme may choose BSc (Hons) in Building Engineering and Management after their year-one studies.

SECONDARY MAJOR

The option of Secondary Major in **Artificial Intelligence and Data Analytics (AIDA)** is available to the students of Award Major in BSc (Hons) in Building Engineering and Management. [With Secondary Major, Credits Required for Graduation: 144 (including 142 academic credits plus 2 training credits)]

The programme with a Secondary Major is designed to train up students to become digitalisation specialists who will lead innovation in the field of construction industry by adopting advanced digital technologies and data-driven approaches. Students are equipped with core principles and practical knowledge in traditional construction technology and management alongside in-depth and integrated understanding of various artificial intelligence and data analytics approaches through interdisciplinary and hands-on training.

Applicants may obtain further information on the website: <https://polyu.hk/XNZRw>

CAREER PROSPECTS

The sustainable growth of the region offers a wide variety of challenging and rewarding careers in the construction industry. Graduates always take up technical and managerial roles as building engineers, planning engineers, project co-ordinators, and construction project managers. Some graduates are employed in property development, building maintenance and facility management in leading organizations in Hong Kong and internationally. The majority of graduates are offered employment before or shortly after completing their studies. Graduates are welcome to study master's degree programmes further at the Department.

PROFESSIONAL RECOGNITION

This programme is accredited by :

- The Hong Kong Institution of Engineers (HKIE)
- The Chartered Institute of Building in the UK (CIOB)
- The Hong Kong Institute of Construction Managers (HKICM)

AWARD CO-ORDINATOR

Dr JoonOh SEO
BSc, PhD, MHKIE

✉ joonoh.seo@polyu.edu.hk

NON-JUPAS Local Senior Year Admissions

- Programme Code: 32405-SYB
- Normal Duration: 2 Years (Full-time)
- Entrance Requirements: An Associate Degree or a Higher Diploma in a relevant discipline. In addition to academic results, preference will be given to applicants with better English proficiency.

Outstanding Young BRE Graduates

BSc (Hons) in Building Engineering and Management

Michele
LUI Wing Chi

2012 Graduate with BSc (Hons) in Building Engineering and Management
2020 CIOB Construction Manager Gold Winner of the Year
2020 CIC Outstanding Construction Manager Sustainability Award
2021 RICS Hong Kong Young Achiever of the Year
2022 HKSAR Chief Executive's Commendation
2023 Outstanding Alumni Award of PolyU FCE
2023 Outstanding Alumni Award of PolyU BRE

I truly cherished my studies in the Department of Building and Real Estate (BRE), PolyU, which has deeply elevated my learning exposure and prepared me to pursue and advance my career in the industry.

Spending a summer semester at the University of Stuttgart, Germany, one of the most notable countries on engineering, under the exchange programme focusing on transport engineering and urban planning, has certainly enriched my global perspective.

Our hands-on learning and contribution in voluntary renovation service to a special-needs primary school under the guidance of PolyU Industrial Centre's lecturers has led our team to receive the award of Certificate of Excellence in PolyU.

Under the Mentorship programme, I was paired with a master from the field as my mentor to deepen my understanding of the construction field and work environment. After graduation, I joined Hip Hing Construction Group as Management Trainee and was promoted to be Project Manager. I participated in significant projects, such as Xiqu Centre and MiC (Modular Integrated Construction) projects. I was honoured by Construction Industry Council as the MiC Champion 2022 for my project expertise.

Serving as a Council Member in various organizations, including The Chartered Institute of Building, Construction Industry Council, Hong Kong Construction Association Young Members' Society on youth affairs, I received the HKSAR Chief Executive's commendation 2022 in recognition of my contributions to the industry. I am also the awardee of RICS Hong Kong Young Achiever of the Year 2021, CIOB Construction Manager Gold Winner of the Year 2020 and CIC Outstanding Construction Manager Sustainability Award 2020.

PolyU and BRE have provided a solid foundation and played a crucial role in shaping my professional pathway, which is undoubtedly instrumental in my career development.

Steven
WONG Ming Chun

2014 Graduate with BSc (Hons) in Building Engineering and Management

Graduated from the Department of Building and Real Estate (BRE) in 2014, I started my career as a project management trainee in Hip Hing Construction Group, one of the leading contractors in Hong Kong.

I am grateful for the all-round training and eye-opening exposure in my 3-year study in BRE. It offered me solid technical knowledge and more importantly, I developed the 'engineering' mind-set that is crucial to a professional in the competitive construction industry. On top of the comprehensive courses, a large number of opportunities were provided for my personal growth, for example, study tour, exchange programme, internship, mentorship and industrial conferences, etc. I was offered a place in a one-semester exchange programme in Loughborough University, the UK. This remarkable experience has widened my horizons and further enabled me to be competent in the challenging work environment.

'Building Engineering' is a challenging profession. I do believe choosing BRE for a comprehensive study will be a great start if you share the same passion with us to build a better home.

BSc (Hons) in Property Management

物業管理學(榮譽)理學士學位

PROGRAMME AIMS

This programme equips students to provide strategic business solutions for corporations and institutions that capitalise on real estate as a business asset, deploying real estate to enhance business value and competitiveness, optimise corporate resources, improve users' experiences, and prepare for the trends of tomorrow. This is a professional education programme with a global and practical vision. Offering a wide range of subjects related to building and real estate, the programme provides an interdisciplinary education in property and housing management and facilities and real estate asset management.

Students of the BRE Scheme may choose BSc (Hons) in Property Management after their year-one studies.

SECONDARY MAJOR

The option of Secondary Major in **Innovation and Entrepreneurship (IE)** is available to the students of Award Major in BSc (Hons) in Property Management. [With Secondary Major, Credits Required for Graduation: 153 (including 151 academic credits plus 2 training credits)]

The programme with a secondary major is designed to transform creative and innovative students into entrepreneurs through cross-disciplinary approach, hands-on experience and entrepreneurial activities. Students are equipped with academic knowledge and practical techniques critical to the development of financially viable and technically feasible innovation and entrepreneurship in the real estate industry.

ENQUIRIES

(852) 3400 3819

Applicants may obtain further information on the website:
<https://polyu.hk/FZVtB>

CAREER PROSPECTS

In view of the increasing demand for experts in the property management service industry, the requirement for degree or professional qualifications at the managerial level is crucial to the leading organizations. Graduates of BSc (Hons) in Property Management pursue their careers as property managers/officials of housing estates or take up posts in the retail and commercial real estate sectors in Hong Kong, mainland China, and beyond. Others serve in Hong Kong government departments, such as the Rating and Valuation Department, Lands Department, and Housing Department. Graduates are welcome to study master's degree programmes further at the Department.

PROFESSIONAL RECOGNITION

This programme is accredited by :

- The Hong Kong Institute of Housing (HKIH)
- The Royal Institution of Chartered Surveyors in the UK (RICS)
- The Hong Kong Institute of Surveyors (HKIS)
 - General Practice Division
 - Property and Facility Management Division
- The Property Management Services Authority (PMSA)

AWARD CO-ORDINATOR

Ms Hebe HOW
B.Bus, GradDip, MSc, MRICS, MCIOB

hebe.how@polyu.edu.hk

NON-JUPAS Local Senior Year Admissions

- Programme Code: 32405-SYP
- Normal Duration: 2 Years (Full-time)
- Entrance Requirements: An Associate Degree or a Higher Diploma in a relevant discipline. In addition to academic results, preference will be given to applicants with better English proficiency.

Outstanding Young BRE Graduates

BSc (Hons) in Property Management

Sandy
LAM Lai Ting

2019 Graduate with BSc (Hons) in Property Management
2018/19 PolyU Student Ambassador

I enjoyed my time at PolyU and the Department of Building and Real Estate (BRE). The Property Management Programme not only offers academic knowledge but also practical training through active and experiential learning. The comprehensive subjects expanded my understanding of the real estate sector and construction industry, which provided a solid foundation for me to work in this field and tackle the challenges.

In addition to the academic curriculum, I had numerous opportunities for personal growth. Participation in the exchange programme, study tours, and internships, both in Hong Kong and overseas, broadened my perspective and enhanced my independence and problem-solving abilities. I spent one semester in the UK for the student exchange programme, which greatly enriched my global insights. I gained a new perspective on the industry and sector while immersed in a Western cultural and educational environment. Also, I was blessed that I was awarded the Hong Kong Institute of Surveyors Scholarship 2018/19 (Second Prize), the Commercial Radio 50th Anniversary Scholarship 2016/17 and the Richfield Realty Limited Scholarship 2016/17.

PolyU and BRE have played a crucial role in shaping my professional pathways. The state-of-the-art knowledge and international exposure equipped me with a well-rounded skill set. I am grateful for the invaluable experiences throughout my journey in BRE, which is undoubtedly instrumental in my career development.

Patrick
LEUNG Chin Pak

2009 Graduate with BSc (Hons) in Property Management

I treasured the opportunities given by PolyU and the Department of BRE to join an exchange programme to study in the Architecture Department of Deakin University in Melbourne, Australia, for about 6 months. This allowed me to broaden my horizons and extended my international network. This definitely benefited me a lot when I worked as a project manager and had to hold various conference calls with client representatives in different places.

Besides, with the support of my department, I was able to join the Preferred Graduate Programme in both 2007 and 2008 to work in Nanjing Construction Bank and the largest developer in Xi Shan for my summer internship. Working in a state-owned company and experiencing the working environment in China were crucial to my career development and life.

BSc (Hons) in Surveying

地產及建設測量學(榮譽)理學士學位

PROGRAMME AIMS

This programme nurtures future professionals in the fields of building surveying, general practice surveying (real estate), planning and development, property and facility management, and quantity surveying (construction economics). Graduates possess the knowledge and skills necessary to lead strategy making in the land, property, and construction sectors.

Students of the BRE Scheme may choose BSc (Hons) in Surveying after their year-one studies.

CAREER PROSPECTS

Graduates readily find employment as professional trainees in surveying consultancies, property development companies, construction companies, government departments such as the Rating and Valuation Department, the Lands Department, the Housing Department, the Architectural Services Department, the Buildings Department as well as other quasi-public organizations. Meanwhile, graduates equipped with comprehensive skills can pursue leading positions in the business and financial services sector. The majority of graduates are offered employment before or shortly after the final examination. Graduates are welcome to study master's degree programmes further at the Department.

PROFESSIONAL RECOGNITION

This programme is accredited by :

- The Royal Institution of Chartered Surveyors in the UK (RICS)
- The Hong Kong Institute of Surveyors (HKIS)
- The Hong Kong Institute of Construction Managers (HKICM)
- The Property Management Services Authority (PMSA)

Outstanding Young BRE Graduates

BSc (Hons) in Surveying

Westing
TSOI Ting

2019 Graduate with BSc (Hons) in Surveying
2018/19 The Chartered Institute of Building (Hong Kong) Outstanding Student Awards

My studies at the Department of Building and Real Estate (BRE) have been a spectacular experience for me. The Surveying Programme offers a well-rounded curriculum that strikes a balance between theoretical knowledge and practical application. The subjects offered are thoroughly designed, with a strong emphasis on the latest developments in digitalization and construction technology. Meanwhile, I gained research experience by participating in different projects led by professors. My dissertation won the Chartered Institute of Building (Hong Kong) Outstanding Student Award for 2018-2019. After receiving solid training in BRE and gaining extensive experience, I am now a qualified member of the Hong Kong Institute of Surveyors (BSD).

During my studies, I had a great opportunity of participating in a half-year exchange programme at the National University of Singapore. This experience broadened my academic and cultural horizons. The global perspective was beneficial during my time as a Technical Trainee at Swire Properties Limited.

BRE's practical training and industry connections were instrumental in preparing me for the professional world. The internship programme and mentorship scheme enabled me to apply my knowledge to practical scenarios, closing the gap between theory and industry.

I am grateful for the knowledge, skills, and experiences gained through BRE's Surveying Programme.

Maria
LAU Nga Yi

2019 Graduate with MPhil (Cambridge)
2018 Graduate with BSc (Hons) in Surveying

Choosing the BSc (Hons) in Surveying is the best decision I have made in my life so far.

Surveying is a discipline that conflates construction technology, economics, finance and land administration as well as law; these skills are subsequently applied to the real estate market. The interdisciplinary training provided by BRE has got me where I am today. The courses offered by the department are genuinely practical yet academic enough to lead easily into further studies. I went on to study for an MPhil degree with the University of Cambridge immediately after my undergraduate degree. Moreover, I was also blessed by the vast variety of industry and international connections that PolyU and BRE have. Using these, I had the chance to explore the Hong Kong, Guangzhou and London real estate markets through a series of internships. The unfailing guidance and generous support I have received from the department are things I was not likely to find elsewhere.

BRE has empowered its graduates to become surveyors of integrity and professionalism. We are equipped to take on not only a specialist role in real estate markets but also a generalist role in many other disciplines, which is what I have decided to do. I am excited that I take a role with HSBC Private Banking as a Management Associate. I explore the realm of wealth and asset management and apply the soft skills and knowledge acquired from my surveying degree. Although I entered a completely new environment, I still feel secure and confident that my four years at PolyU have been more than well spent and have adequately prepared me for any challenges ahead.

I am heartily thankful to have read for the Surveying degree with PolyU. A successful programme enables its graduates to thrive, not only in the specific discipline they study, but also in society at large. I could never have imagined how far the BSc (Hons) Surveying degree would take me in my career. BRE was a platform that helped me unleash my potential. I truly look forward to seeing one day what I can give back to my Alma Mater.

Student Exchange Programme

Student Achievements in the Global Arena
開拓國際視野 增加多元化體驗

PROGRAMME AIMS

This programme aims to provide students with an opportunity to broaden their experience, widen their horizons, gain an understanding of other cultures, and enhance their professional and social prospects. The Department of Building and Real Estate has been making strong connections with prestigious universities around the world since 2003.

PROGRAMME OBJECTIVES

The objectives of the programme are to provide students with the opportunity to :

- Learn about a different culture by experiencing it first-hand
- Gain an understanding of personal values, practices and beliefs through interaction with another culture
- Become more independent, flexible, mature, and confident
- Improve language skills by immersing in a foreign language environment
- Make friends with people from different cultural and social backgrounds
- Add a valuable global dimension to university life, which employers find attractive

BRE STUDENTS HAVE EXCHANGED / WILL EXCHANGE TO THE FOLLOWING UNIVERSITIES:

OVERSEAS

- Aston University, U.K.
- Cardiff University, UK
- Curtin University, Australia
- Korea Advanced Institute of Science & Technology, Korea
- KTH Royal Institute of Technology, Sweden
- Nanyang Technological University, Singapore
- National University of Singapore, Singapore
- Oxford Brookes University, UK
- Pennsylvania State University, USA
- Politecnico di Milano, Italy
- Royal Melbourne Institute of Technology, Australia
- Sungkyunkwan University, Korea
- Technical University of Darmstadt, Germany
- Technical University of Munich, Germany
- The University of Newcastle, Australia
- University at Buffalo SUNY, USA
- University of Florida, USA
- University of New South Wales, Australia
- University of Reading, UK
- University of Technology Sydney, Australia

CHINESE MAINLAND AND TAIWAN

- Central University of Finance and Economics, Beijing
- Chongqing University, Chongqing
- National Cheng Kung University, Taiwan
- National Taiwan University, Taiwan
- Shanghai Jiao Tong University, Shanghai
- Tongji University, Shanghai
- Tsinghua University, Beijing

Work-Integrated Education

Work-Integrated Education (WIE) is work-based learning experience, which takes place in an organizational context relevant to a student's future profession, or relevant to the development of generic skills that will be valuable in that profession. It is a credit-bearing element required for all full-time undergraduate students in The Hong Kong Polytechnic University.

Values to Students

- Apply knowledge learned in classes to practical use and in return strengthen future classroom learning
- Understand industry practice so that students can have better career planning and explore room for improvement
- Build work reference and network for future career

Three BRE WIE's Intended Learning Outcomes

- Identify and formulate solutions to problems related to the profession and industry
- Communicate effectively
- Contribute as a team member and lead effectively

We strive to seize opportunities in workplace for our students

- Since 2006, over 150 students take WIE activities each year
- A number of companies are WIE Supporters which provide training opportunities for our students in the long term

Wong Yuen Lam

It is doubtless that we have learnt a lot from this internship. The best part was having many supportive supervisors and colleagues who gave us many opportunities and allowed us to unleash our potential. We are grateful that we have the chances to experience the actual workplace in the industry.

Chan Pak Hin

This exposure to the field of valuation at Cushman & Wakefield has been one of the most eye-opening and invaluable experiences.

Lam Chun Wang

WIE and the internship have given me ample opportunities to assist construction projects with BIM and increase my exposure to a real working environment. In addition, it increases my insight and understanding of the field.
