

International Conference on Technological Innovation of Structural Engineering, Chongqing, China 2016.05.14-17

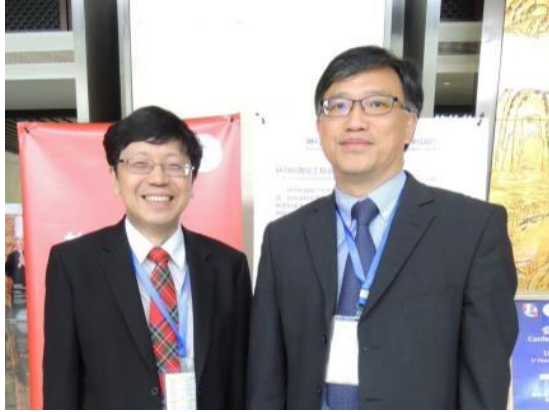

The International Top-Level Forum on Engineering Science and Technology Development Strategy – Innovation and Development of Structures & Structural Modal Properties Measurements and Applications 2016, sponsored by the Chinese Academy of Engineering (CAE) and Chongqing University (CQU), was successfully held from 14th to 17th May 2016 in Chongqing. Twenty Academicians from China, Austria, Singapore and the United States together with more than 100 participants attended this prestigious event. Professor Kwok-Fai CHUNG, *Director of the Chinese National Engineering Research Center, CNERC for Steel Construction (Hong Kong Branch)* delivered one of the key-note speeches and was well received by the participants. During this 3-day event, Professor Chung has also shared the latest development of the *CNERC for Steel Construction (Hong Kong Branch)* with the eminent delegates, among those included Professor Xu-Hong ZHOU - Academician of the CAE, President of Chongqing University, Director of Research Center for Steel Structure Engineering, CQU; Dr Man-Chung TANG – Chairman of the Board, T.Y.LIN INTERNATIONAL; Professor Chien-Ming WANG from National University of Singapore and Professor Kang-Hai TAN from the Nanyang Technological University, Singapore.
