

## Meeting at the National Engineering Technology Research Center for Prefabrication Construction in Civil Engineering 2019.01.28-29

During this 2-day visit, Dr. T. M. Chan, Deputy Secretary General of the CNERC together with the delegations from NAMI attended a meeting at the National Engineering Technology Research Center for Prefabrication Construction in Civil Engineering on 28 January 2019. During the meeting, both sides shared their experiences on the current development on the prefabrication technology and modular integrated construction as well as exploited the potential area for collaboration.

Mr. Xinkun LU (NAMI)

Dr. Ivan SHAM(NAMI)

Dr. Hai GONG (National Engineering Technology Research Center for Prefabrication Construction in Civil Engineering)

Dr. Tak-Ming CHAN (CNERC)

Dr. Honggang ZHU (NAMI)

Dr. Yanbo WANG (TONGJI)

Dr. Qing LIU (National Engineering Technology Research Center for Prefabrication Construction in Civil Engineering)

Dr Chen CHENG (National Engineering Technology Research Center for Prefabrication Construction in Civil Engineering)

On the 29<sup>th</sup> January 2019, Dr. Chan and the delegations from NAMI visited the fabrication yard of UTILISED™ BUILDING (UB) CHINA. They met up with the General Manager (Mr. Keith XING), Vice General Manager (Mr. Dong LIU) and Mr. Aaron WU (Chief Technical Officer) from the UB China. During the meeting, UB shared their construction experiences in China and overseas. Both sides also shared their experiences and views on modular integrated construction and explored some potential collaborative areas.
