2019.05.29-30

Chinese National Construction Steel Structure Industry Conference 2019

The Chinese National Construction Steel Structure Industry Conference 2019 as guided by Ministry of Industry and Information Technology and Ministry of Housing and Urban-Rural Development, and organized by China Construction Metal Structure Association, and supported by Hunan Jinhai Group Co., Ltd., was held in Changsha, Hunan during 29 – 30 May 2019. The conference attracted well-known experts and scholars from the steel structure industry, leaders and officials of government departments, and nearly a thousand representatives from the industry including Hong Kong, Macau, and Taiwan. CNERC was invited to present at the conference, and the delegation attended the conference included:

- Prof. K. F. Chung, Director of CNERC
- Dr. T. M. Chan, Deputy Executive Secretary of CNERC
- Dr. H. C. Ho, Deputy Executive Secretary of CNERC

The theme of this conference is "High Quality Construction, High Quality Development – Building Chinese Brands in the Construction Steel Structure Industry". Align with the spirit of the 19th Chinese National Congress of the Communist Party of China and the spirit of reform and development put forward by the 2 Boards of the Chinese Government Officials in 2019, the new deployment of the 2019 Chinese National Housing and Urban-Rural Construction Working

Conference was actively promoted, and further implemented the "Guiding Opinions on Vigorously Developing Prefabricated Buildings."

The content of the 3rd Steel Structure Building Green Development Forum in 2019 included:

The Chinese National Construction Steel Structure Industry Conference

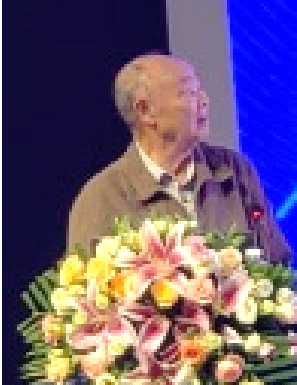

Speech by Prof. Hao Jiping, President of China Construction Metal Structure Association

Keynote Speech of the Conference included:

1. Prof. K. J. Ma, Guizhou University – “Technical Specification and Engineering Application of Space Steel Grid Box Structure”
2. Prof. X. H. Zhou, Chongqing University – “Research on Prefabricated Steel Structure Housing Complete System”

3. Prof. J. G. Nie, Tsinghua University – “Steel Box Girder Composite Structure Bridge Technology Application”
4. Prof. Q. Y. Ren, National Engineering Survey and Design Master – “Technology and Research of Modular Steel Structure Housing”
5. Prof. K. F. Chung, The Hong Kong Polytechnic University – “Research, Test and Design of Structural Performance of High Strength Q690 Steel and Welded Components”
6. Prof. G. Q. Li, Tongji University – “Research and Application of High Strength Steel in Steel Structure Building”

Prof. K. J. Ma, Guizhou University

Prof. J. G. Nie, Tsinghua University

Prof. K. F. Chung, The Hong Kong Polytechnic University

Chinese National Construction Steel Structure Industry Conference

“Golden Structure Award” trophies of China Construction Metal Structure Association

A dinner banquet was held after the Chinese National Construction Steel Structure Industry Conference 2019, which wrapped up the success of the Conference.

Prof. K. F. Chung and Chief Engineer Z. M. Chen, General Manager of China Construction Steel Structure Corp. (Rightmost)
