Hong Kong Alliance of Technology and Innovation BOCHK Science and Technology Innovation Award Establishment and Launch Ceremony 2022.07.15

The 14th Five-Year Plan of the People's Republic of China outlines the need to maintain Hong Kong's long-term prosperity and stability and supports Hong Kong in consolidating and enhancing its competitive advantage. In order to help Hong Kong become an international Innovation and Technology Centre, a group of representatives from the local Hong Kong's industry, academia and research sectors launched the "Hong Kong Alliance of Technology and Innovation" on 25 January 2022, hoping to further enhance Hong Kong's development through collective strength. The mutual connection of scientific research platforms, institutions, organizations, societies and innovative technology enterprises promotes exchanges and collaboration between them, and provides suggestions for the development of science and technology in Hong Kong.

On the morning of 15 July 2022 (Friday), the "Hong Kong Alliance of Technology and Innovation" held the "BOCHK Science and Technology Innovation Award Establishment and Launch Ceremony" in the conference hall on the 70th floor of the Bank of China Tower. Prof. K. F. Chung, Director of CNERC was invited to attend the event.

The "Hong Kong Alliance of Technology and Innovation" was also sponsored by Bank of China (Hong Kong) Limited to set up the "BOCHK Science and Technology Innovation Award", focusing on five fields including artificial intelligence and robotics, life and health, new materials and new energy, advanced manufacturing, and financial technology. Every year, individuals and teams who have made outstanding achievements in scientific and technological innovation and transformation of scientific research achievements in Hong Kong are commended, hoping to actively promote the development of scientific and technological innovation in Hong Kong.
