

Establishment of Guangdong-Hong Kong-Macao Smart Construction Industry Development Alliance cum Guangdong-Hong Kong-Macao Smart Construction Cooperation and Development Conference
2024.09.25-26

Dr. Y. F. Hu, Deputy Executive Secretary and Research Assistant Professor, and Dr. B. Li, Postdoctoral Fellow of CNERC were invited by the Guangdong-Hong Kong-Macao Smart Construction Industry Development Alliance to attend its establishment meeting on 25 September 2024 afternoon. At the meeting, the Alliance Charter, Chairman unit, Vice Chairman unit, and Director unit were voted on and passed unanimously. Guangdong Academy of Building Science and Hong Kong Academy of Building Technology were elected as Chairman units, The Hong Kong Polytechnic University was elected as Vice Chairman unit, and the Director of the Business Development Department of Guangdong Academy of Building Science was unanimously elected as the Secretary-General of the Alliance.

Construction being a conventional core industry of the Chinese economy, it is an important part of the high-quality development of the industry, and also a key area for nurturing and practicing "new quality productivity". By taking intelligent construction as a strategic focus, actively promoting the digital transformation and high-quality development of the construction industry is an inevitable direction to accelerate the birth of "new quality productivity" with the characteristics of the construction industry. Under the leadership of the Education and Science Department of the Liaison Office of the Central People's Government in the Hong Kong Special Administrative Region, the Department of Housing and Urban-Rural Development of Guangdong Province, and the Hong Kong Development Bureau, the Preparatory Working Group of the Guangdong-Hong Kong-Macao Intelligent Construction Industry Development Alliance conducted extensive negotiations and exchanges with relevant institutions in Guangdong, Hong Kong and Macau in 2024, the Alliance was formally established in September 2024. The main tasks of the Alliance are to strengthen the construction of the top-level policy system; strengthen technical research and coordinate various standards; build a multi-level talent system; accelerate the promotion and application of product technology; promote industry collaboration and exchanges; and create a complete industrial system.

The Alliance establishment ceremony was held on 26 September 2024 morning.
