40th Anniversary of China Steel Construction Society cum China Steel Construction Conference 2024 in Beijing **2024.10.21-22**

Prof. K. F. Chung, Director of CNERC, and Dr. X. F. Yang, Postdoctoral Fellow of CNERC were invited to attend the **40th Anniversary of China Steel Construction Society**, and the **China Steel Construction Conference 2024** held in Beijing on 21 and 22 October 2024.

Established in 1984, the China Steel Construction Society (CSCS) is the leading industrial organization in the steel construction industry, comprised of major steel fabricators and construction companies, research institutes, universities, and experts in China. At present, CSCS has about 3,000 company and individual members.

To celebrate the **40th Anniversary of China Steel Construction Society**, a number of seminars and forums on new technologies, products and materials in steel structures were held. A total of 800 representatives and delegates from research institutes, industry associations, universities, manufacturers, design firms, and construction companies attended these events.

The 40th Anniversary of China Steel Construction Society

Prof. K. F. Chung with Academician Prof. Q. R. Yue

In the afternoon of 21 October 2024, Prof. Chung attended the 10th Executive Council Meeting of the 8th Session of the China Steel Construction Society. The meeting was hosted by Mr. Y. Liu, Executive Vice President of the CSCS.

The Executive Council Meeting of the China Steel Construction Society.

During the **Celebration for 40th Anniversary of China Steel Construction Society**, the Hong Kong Constructional Metal Structures Association was honored with the “*Best Collaboration Award*” in recognition of its outstanding contributions to the CSCS.

The Award Presentation Ceremony for the “*Best Collaboration Award*”
Being the third from the right, Prof. Chung represented HKCMSA to receive the Award.
