## Guangdong Provincial Steel Structure Association's 30<sup>th</sup> Anniversary Celebration Conference 2024.11.23

Prof. K. F. Chung, Director of CNERC, and Dr. B. Li, Postdoctoral Fellow, were invited by Prof. Z. M. Chen, President of the Guangdong Steel Structure Association, to participate in the 30<sup>th</sup> anniversary celebration of the Guangdong Steel Structure Association on 23 November 2024.

The Guangdong Provincial Steel Structure Association was established in 1994. It is a non-profit social organization with legal entity registered by the Guangdong Provincial Department of Civil Affairs. It currently has 238 group members and 146 expert committee members. It brings together members of the construction metal, ship, bridge, Excellent enterprises and talents in various fields of curtain wall, cable membrane, steel, materials and other industries.

Over the years, the Hong Kong Construction Metal Structure Association, CNERC and the Guangdong Steel Structure Association have had close ties. Base on the natural location advantages of the Greater Bay Area, the two parties have conducted a lot of cooperation and exchanges in the formulation of standards and engineering experience in the field of steel structures, and have provided a good foundation for Guangdong Province, and made important contributions to the development of the steel structure industry in Hong Kong SAR.

Prof. K. F. Chung (first from left) took a group photo with Prof. S. T. Wang (second from left), a distinguished figure of the Guangdong Provincial Steel Structure Association, and Prof. G. J. Bao (third from left)

Prof. Zhenming Chen

Prof. Z. M. Chen, Chief Engineer of China Construction Steel Engineering Co., Ltd., National First-class Registered Structural Engineer, National First-class Registered Constructor, British chartered Registered Structural Engineer, high-level leading talent in Shenzhen, and outstanding young engineer in Beijing. He serves part-time as the Chairman of Welding and Connection Branch of China Steel Structure Association, Deputy Director of the Expert Committee of China Steel Structure Association, Deputy Director of the High-Rise Building Living Environment Academic Committee of the Architectural Society of China, and President of the Guangdong Steel Structure Association.
