

## Metal Art 999 Silver Bracelet Workshop 金工純銀手鐲製作體驗班

Metal Art is a metal craft that uses long-established techniques for making traditional silver jewellery. A great deal of effort and patience is required to make a small piece of jewellery from silver wire and silver slice. Participants will create their own jewellery and have the fun and challenge of "playing with silver". Learning a variety of skills including cutting, knocking, black silver oxidization, smoothing, sanding and polishing is all part of a process that tests participants' strength and persistence.

Ms Vicky Leung has obtained a PMC Silver Clay Certification (Level One) from Japan, and has more than six years of experience in holding workshops for making silver clay objects by hand.
