Field Trip to Hollywood Road, Central

26 October 2019

(Saturday – 1 session)

1 pm – 3 pm

Photography can be a medium for documentation and storytelling. Nowadays, digital photography has become an extremely popular medium among photography lovers. In this course, the instructor will guide participants through basic photography techniques including composition, lighting and the exposure triangle. He will also introduce different types of photography and encourage participants to explore subjects they are interested in. Each participant will create their photographic works outside of the workshop and on the class field trip, and complete a photography portfolio by the end of the course.

Mr Kenny Mok studied photography at Middlesex University London in 2013. In 2017, Mok took part in "Some Interference – Join Exhibition of Action", in which he created artworks with images from video games and glimpses of reality, blurring the boundary between documentation and creative expression in photography. In the same year, he presented the solo exhibition "Photography and Performance", in which he used the photographic act to explore performance art.

攝影可以是記錄工具，也可以是講故事的工具。近十多年來數碼攝影的發展，令攝影愛好者可以比從前更方便地享受攝影。在本課程中，導師將會教授攝影的基本技巧，包括構圖、光線運用、曝光三角等。除了攝影技術知識外，導師會介紹不同創作攝影的方法，亦會引導每位學員探索自己有興趣的題材。每位學員需要在課堂內外拍攝一系列的個人作品，並會得到導師的評鑑。

莫偉立先生於2013年負笈英國密德薩斯大學修讀攝影。2017年參加《有啲干擾》創作行動聯展，在現場即興結合遊戲虛擬影像與現實，嘗試整合攝影的紀錄性與表現性。同年更舉行個人展覽《攝影與行為》，首次駐場以攝影探索行為藝術。

* Participants are required to bring their own digital camera.
