Workshop participants will have the chance to explore this age-old craft and use a traditional weaving handloom to create a handbag or lanyard of their own design. The workshop is designed to give an overview of basic weaving techniques, as participants experiment with a variety of materials and colours as part of the weaving process.

Ms Cecilia Lai is a local hand weaving artist who graduated from the Department of Fashion and Textile, The Hong Kong Polytechnic University. She established Breakthrough Art Studio in 2015 to promote the art of hand weaving and preserve this traditional craft.
