Participants can learn how to appreciate traditional Japanese style bamboo basket weaving. Techniques of base weaving, body building and edging will be covered. Tutor will also transmit knowledge on bamboo weaving, such as bamboo characteristics, usage of tools and weaving methodology.

Barnard Chan has started the journey in bamboo and rattan weaving by an experience in participating a voluntary bamboo corridor weaving program in Taitung. After that, he has also learnt craftsmanship from aboriginals in Taiwan. Next to basketry, he also created bamboo installations in different places.

本課程教授傳統竹編工藝，以四海波花籠作為練習目標，學員會學習起底結構，獨特的收沿技術，和反映日式竹籃的美學。導師還會分享有關竹編的知識，例如竹材特性、工具介紹和編法等。

導師陳郁於2017年去台東參與竹編走廊義工而展開竹藤編織工藝旅程，其後跟隨台東原住民學習技藝，除了日常器物外，更於多個地方創作竹藤藝術裝置。
