

Paper Rattan Weaving Workshop 紙籐編織班

This workshop introduces traditional basketry craftsmanship. Participants will practice different techniques by weaving a container, including the basement, body, edge and knot. Paper rattan is suggested for beginners in the workshop. During the lesson the tutor will share more on traditional bamboo and rattan weaving craft.

Mr Barnard Chan started his journey in bamboo and rattan weaving by participating in a voluntary bamboo corridor weaving program in Taitung. After that, he has also learnt craftsmanship from indigenous people in Taiwan. Aside from basketry, he has also created bamboo installations in various places.

本課程主要教授傳統器物的編織工藝，尤其是編織有蓋的儲物器，物料則採用紙籐。整個編織流程會讓學員掌握到起底、立身、收沿、結繩等技術。除了指導學員動手編織外，導師還會講解竹籐編織的知識，讓學員更多認識傳統編織工藝。

導師陳郁先生曾於2017年專程往台東，擔任竹編走廊的義工，而展開他的竹籐編織工藝旅程。他跟隨台東原住民學習此一絕技後，除了編織日常竹製器物外，更於港台多個地方創作竹籐藝術裝置。
