MISSION STATEMENT

The Doctor of Design (DDes) programme at PolyU Design strives to be the leading Asian doctoral programme for industry professionals by offering training in practice-based research skills and a flexible programme structure.

PROGRAMME HIGHLIGHTS

Practice-based		Generate knowledge via your existing practice
Interdisciplinary		Connect your interests and skills across disciplines
Intra-design		Expand your knowledge to design subdisciplines
Flexible		Customise your study to meet specific learning goals

TARGET STUDENTS

The DDes programme accommodates the needs of mature and experienced industry professionals, leaders, and educators already holding a master's degree in relevant disciplines.

AREAS OF COURSES OFFERED

1

**Design
Research Methods**

2

**Practice-based
Research**

3

**Thematic
Study in Design**
