**Overview on the Organisation**

It is a not-for-profit organisation which focuses on environment protection and environmental sustainability. It has no ties with any political bodies. As a member based organisation, membership subscriptions and staged events and conferences are important sources of funding.

The mission of the organisation is to raise awareness about major environmental challenges in scale and relevancy consideration. It encourages business and industry the commercial solutions that they can undertake to contribute. By including big corporation and different sectors into the action, they will become the backbone of the next era of wealth generation tackling the environmental challenges. Therefore we invest our time and resources in providing far-reaching policy recommendations.

Its membership comes from different sectors and includes investors, bankers, technology and infrastructure developers, consultancy and engineering companies involved in all areas of the economy.
