

**Internship Field: Nutrition**

**Job ID: AU009**

Science

**Internship Dynamics**

Location: Sydney, Australia

Length: 1 position between June to August for 8 weeks

**Overview on the Organisation**

We are a well-known educational institute with leading health sciences education and research. We offer innovative programs in health professions at undergraduate and postgraduate level. Our research ranks 'well above world class'. We have several research centres focused on improving health outcomes in specialist areas.

One of the ongoing research placed focus on the integration of medicine, exercise physiology, and nutrition as a means to improve health status and quality of life across the lifespan. You might be given chances to involve in designing and carrying out clinical trials and longitudinal studies in Australia, including large multi-centre trials of exercise and chronic disease prevention and treatment.

**Duties**

You will be offered an internship assisting one of current research projects. Some of your responsibilities may include but may not be limited to: screening of participants, data analysis and interpretation, preparation of manuscripts.

**Application Deadline**

24<sup>th</sup> January 2025 (Friday)
