Internship Dynamics

Location: Sydney, Australia

Length: 2 positions between June to August for 6 weeks

Overview on the Organisation

We can provide a service covering every aspect of film production. Our Film services can meet all your needs with contacts of directors, script writers, camera operators, grips, lighting, various assistants, editors, boom operators, SFX staff and even film-making documentation.

It was established in the late 1990s and has been built on creative approach to leading-edge technology in film and video production in the northern Sydney suburbs. Our team specializes in visual communications for film, video, animation, stereoscopic productions, visual effects, colour grading and VR productions.

We have created works in: Films and documentaries, video production, animation production, motion graphics, corporate video productions, commercial advertisements and TV ads, infomercials, DVD productions, e-learning material, interactive video content, online video production and social media.
