

Internship Field: Food Safety/ Engineering
Job ID: NZ007

Engineering

Internship Dynamics

Location: Auckland, New Zealand

Length: 2 positions between June to August for 6-8 weeks

Overview on the Organisation

We are a food factory producing snacks including biscuit, cuppa, or crackling packet of chips.

We are one of the New Zealand's favorite biscuit bakers. We have been delighting for over 100 years.

Our products can be found in chained supermarket in New Zealand.

Duties

Intern will have the opportunity to be involved in the full review of our projects to determine what products we are running out of specification. This would involve doing analysis of paper work, making recommendations on improvements and implementing some of those improvements.

Application Deadline

24th January 2025 (Friday)
