I.T.

Internship Field: IT
Job ID: UK006

Internship Dynamics

Location: London, UK
Length: 1 position between June to August for 6 weeks

Overview on the Organisation

We were established in 1997 and now provides a comprehensive range of property solutions.

Our core business is property, asset management and advisory property services. We are non-transactional, and we believe this is a key strength as we focus entirely on property management and asset advisory services.

We have received a number of awards including a World Skills National Training Award, Employer of the Year of all Camden & Islington Businesses and awards for our ESG 'environmental social and governance' policies as well as our CSR 'corporate social responsibility'. Our success would be impossible without our passionately committed team. We expect 5 star service so first we must look after our people.

We offer a comprehensive range of property solutions including surveys, valuations, legal services, property/facilities management and sales and lettings. We have offices in London, Manchester and Cardiff.

Duties

Typical Tasks -
- Mapping the current business processes, data mining, data analysis, data mapping, data visualisation
