

Engineering

## **Internship Field: Engineering**

**Job ID: UK008**

### **Internship Dynamics**

Location: London, UK

Length: 1 position between June to August for 6 weeks

### **Overview on the Organisation**

Specializing in various construction projects, we excel in civil and building Engineering, Concrete Cutting, Controlled Demolition, Fire Protection, and Waste Management. Our internal support extends from Engineering & Design, Fabrication (K FAB), to Plant and construction equipment (K PLANT).

Through strategic partnerships with clients across diverse sectors, we leverage the broad expertise, experience, and skills of our teams to actualize our clients' visions.

Consistently, our diverse and highly skilled team delivers outstanding, occasionally award-winning, bespoke solutions through a fusion of innovation, courage, and steadfast determination.

### **Duties**

- Developing project objectives by reviewing project proposals and plans; conferring with management.
- Confirms product performance by designing and conducting tests.
- Maintains project schedule by monitoring project progress; coordinating activities; resolving problems.
- Prepares project status reports by collecting, analyzing, and summarizing information and trends; recommending actions.
- Maintains safe and clean working environment by enforcing procedures, rules, and regulations.
- Maintains project data base by writing computer programs; entering and backing up data.
- Maintains product and company reputation by complying with federal and state regulations.
- Contributes to team effort by accomplishing related results as needed

### **Application Deadline**

24<sup>th</sup> January 2025 (Friday)
