work

Working Hours / Week: 30.0

The offered project "Droplets as liquid robots" aims (but is not limited to) to study experimentally in the chemical laboratory the life-like behaviour of droplets (namely artificial chemotaxis, shape changes, rotation, fusion and division). Such a research belongs to the artificial life studies.

ADDITIONAL INFORMATION

Please follow the instructions for preparing nomination documents and the visa process in the attached document. This document is intended only for you and your student; please do not include it in the student's nomination.

IAESTE provides accommodation in a student dormitory, where interns are housed in shared double rooms with same-sex roommates. If the intern prefers a single room, they are responsible for arranging alternative accommodation independently.

Deadline for Nomination - 15-Mar-2025
