

Employer:	Cathay Pacific Airways Limited
Internship Position:	Engineering Intern
Industry:	Aviation
Duration:	July – August (8 weeks)
Placement Country:	Thailand
Job code:	A126a

Job Description

You will get a taste of how the Engineering Department of a world-class airline carrier operates, as well as the chance to tour exciting aircraft and learn how aircraft flight systems work. You can gain a good understanding of what it takes to deliver safe, compliant and reliable aircraft.

During the programme, you will receive a series of briefings from Cathay Pacific engineers on a range of topics such as ground safety, maintenance control and support, reliability, and aircraft theory of flight and aircraft systems.

Requirements

- **Related discipline:** ME, AAE
