

NEUROSCIENCE RESEARCH GROUP PRESENTS: DISCOVERY OF THE MEMORY-WRITING CHEMICAL IN THE BRAIN

Speaker:

Prof Jufang He

Department of Rehabilitation Sciences
The Hong Kong Polytechnic University

Date: 3 December 2012 (Monday)

Time: 1 pm – 2 pm

Venue: ST522, PolyU Campus

Online Registration:

<http://fhss.polyu.edu.hk/neuroscience.htm>

Enquiries: 3400 3184

ABSTRACT:

Patients with damage to the hippocampal system have great difficulty forming new long-term declarative memories and but still recall their remote memories, while neocortical damage impairs remote memories...
