

## Update on the upcoming Conference Book

Doug Pearce and Dick Butler are pleased to report that they are on the point of signing an agreement to publish a book entitled *Tourism Research: a 20/20vision* containing selected papers to be presented at the La Rioja meeting of the Academy. The proposal was well received and the editors are confident that the publishers will be able to deliver a timely and high quality publication. All contributors to the proposal that went forward have been contacted with feedback from the reviewer and advice that chapters will now have a maximum length of 5000 words. Style guidelines will be sent out shortly. Contributors are also reminded of the following deadlines:

**1 May 2009:** submission of full papers. This will enable some editorial feedback to contributors while in La Rioja

**30 September 2009:** submission of final versions of papers incorporating any changes made after presentation and discussion in La Rioja.
