

Top Shipping School Research Rankings 2012-2014

Shipping is a global industry closely linked with global trade. Shipping research has grown significantly in recent years. Researchers have devoted effort to advance the knowledge frontier of shipping studies as well as the theoretical foundation. Scholarly journal publications are important to facilitate knowledge sharing among researchers and practitioners. This report provides the latest information on the top shipping school rankings in the world.

By tracking publications on shipping studies under the category “Transportation”, we examine research on shipping and shipping-related topics captured in Thomson Reuters’ database of *ISI Web of Science* between 2012 and 2014. This report provides information on: (1) number of shipping articles published between 2012 and 2014, (2) key journals publishing shipping research outputs, and (3) worldwide rankings of shipping schools.

To begin, we conducted a search of the Citation Report in the *ISI Web of Science* to identify shipping-related articles published between 2012 and 2014 under the category of “Transportation”. We found that there are 335 such articles as follows:
