

## **Fabric Merchandiser**

### **Job Description**

- Search for new fabric trends and take initiative to work with mills to develop new fabric suitable for the brand
- Offer proactively the fabric options and development strategy to design team for new season development and provide technical suggestions to mills on new fabric development options
- Oversee all sample fabric and trim ordering, all initial fabric testing, and reports plus FOB costs negotiation
- Provide solutions for bulk fabric quality issue to support the production process
- Manage timely sample fabric ordering, color and quality approval, bulk lot, and test approval to meet all required deadlines
- Evaluate and track mills' performance, resolve potential risk and conduct troubleshooting to avoid quality or delivery issues at bulk stage
- Manage & maintain color library on seasonal base and support production team for bulk color and qualities issues
- Keep abreast of industry changes, market intelligence, and fashion trends

### **Requirement**

- Diploma holder in Textile & Technology with at least 5 years relevant experience, preferably from fashion retail industry or sizable companies
- Solid experience in garment or raw material manufacturing, woven fabric development especially in suiting and shirt fabric categories for apparel brands
- In-depth knowledge of fiber, weaving, dyeing and finishing, inspection procedures, and testing methods for textiles
- Sound fabric and lab test knowledge, proven experience in mills training, specific on quality/color approval is a plus
- High adaptability to changing business requirement and across functional team environment

- Good command of spoken and written English and Chinese (including Cantonese & Mandarin)
- Traveling to China / Asian mills in case of business needs

**We offer:**

- Attractive salary package
- Discretionary Performance Bonus
- Medical Insurance
- Staff Discounts on Purchases
- 5-day work week with flexible work options
- Voluntary MPF Contributions
