AiDLab is the first research platform that focuses on the integration of Artificial Intelligence (AI) with design. It was jointly established by The Hong Kong Polytechnic University (PolyU) and the Royal College of Art (RCA) in the UK, and is funded by the HKSAR Government under the InnoHK Research Clusters. Located at the Hong Kong Science Park, AiDLab has established a new creative cluster of AI in design and is in a leading position internationally to conduct interdisciplinary research that drives innovation and sustainability, and makes a positive impact on both industry and society. AiDLab brings together a diverse mix of leading researchers and practitioners from its founding institutions to conduct research in three thematic programmes: Ergonomic and Inclusive Design, Innovation in Product and Service Design, and Intelligent Fashion Design and Quality Control.

Post

Part-time Student Assistant for Laboratory for Artificial Intelligence in Design (AiDLab)
(1 vacancy)
