

BAGTROTTER

Job Description

Position Title	Junior Textile Engineer – Part time		
Business/organization	Bagtrotter Limited		
Position report to (Title)	Various Project Manager		
Position Location	Hong Kong	Date	3 Jan 2023

Position Summary

Bagtrotter is a manufacturer and developer in all categories of bags. Having begun as a seller of cooler bags, our catalogue now encompasses reusable shopping bags, back packs, pencil cases, totes, etc. Working with a global clientele of large retailers with an eye for sustainability and innovation, we are looking for a junior textile engineer to help improve our supply chains, material catalogues, and support our sustainable goals. The successful applicant should be knowledgeable of various different textile fabrics, production methods, and performance.

Materials we work with: Recycled Polypropylene (Non-woven + Woven), Recycled Polyester (Non-woven + Woven), Organic Cotton, Hemp, Jute, Bamboo, Lyocell, Recycled Paper

Job Responsibilities:

- Support sales and production teams with case studies on different materials and their benefits to the given project from both a financial and sustainable perspective
- Implement a catalogue or database of different materials and supply chains the company already uses
- Research and provide insight to new or emerging materials which may be useful to the company
- Independently oversee small projects, co-ordinating with various different teams

Job Requirements:

- Diploma or above in Textile Engineering
- Experience in working in a multi-national company and American / European market
- Able to work under pressure, self-motivated, result oriented, responsive and detail minded
- Good communication skills and need to be a good team player
- Proficient in written/spoken English, Cantonese and Mandarin

Application Method:

Please submit your full resume to stella.lee@landa.hk with expected salary and date of availability
