

About Us:

Browzwear is the leading provider of 3D fashion design, development, and merchandising solutions. Our mission is to revolutionize the apparel industry with our truly disruptive 3D technology, providing the tools needed to achieve that goal. We work with some of the biggest and most well-known global companies in the industry.

Our Global Learning and Technical Support Department turn 2D patterns into 3D garments and problems into solutions. Members of our team have achieved expert user status in our Browzwear suite of tools and are excited to share their passion and technical knowledge with others. Our purpose is to help users onboard into 3D technology and maximize their productivity when it comes to Browzwear 3D product creation.

We are looking for a Part Time Fabric Tester to join our team.

Hourly rate: HKD 60-75

Who You Are:

- Perform fabric testing
- Liaise with the Company's business development and support department to provide feedback for continuous improvement of the Company's software.
- Handle Show & Tell demo garment
- Manage all other communications and administrative work needed to perform the above tasks

Requirements:

- Diploma or Bachelor's Degree in Fashion Design, Apparel Technical Design, 3D Design or related field
- Experience in VStitcher or any apparel 3D technology will be a plus
- Familiar with Photoshop
- Proficiency in English and Mandarin language preferred

Extra Credit:

- Experience with 2D apparel pattern making software
- Experience with 3D design software and production pipeline
- Relevant customer service experience, understanding issue and relationship management
