Service Project																						
What will students do to serve?	<p>Lectures and practical lab sessions will be arranged to allow students to understand the basic concepts of vision screening and familiarize themselves with some simple yet important clinical tests for vision assessment. Students are required to work in groups (10~15+ per group) to develop a vision screening project to serve underprivileged communities in Hong Kong[#] throughout this two-semester subject. Site visit(s) will be arranged prior to the vision screening. Students will be delegated with different tasks to render and serve before, during and after the screening activities throughout a two-semester duration. Supervisors will be on-site to help disseminate eye care information and also provide supervised talks or seminars.</p> <p># Vision screening projects are based on a first-come, first-served sign-up system. Not all students will be guaranteed their first choice in project location and/or servicing communities.</p>																					
Whom will students serve?	People with difficulties in accessing vision and eye health care services, including but not limited to elderlies, schoolchildren (especially kindergarten and primary school students), new immigrants, low-income families, refugees, ethnic minorities as well as those afflicted with physical and mental disabilities.
