Portraiture is a widely popular practice among photography lovers. In this workshop, Mr Simon Wan will introduce the basic theories of portrait photography. Participants will learn different techniques, such as composition, lighting, observing the subject, camera angle and the background, and communication with the model for creating their unique portrait works.

Mr Simon Wan graduated from the Department of Documentary Photography, University of Wales College. He established The Photocrafters in 2006 to promote photography culture. His works have been exhibited in Hong Kong and other regions in Asia and Europe, and are collected by the Hong Kong Heritage Museum, overseas institutions and private collectors.
