

**The Hong Kong Polytechnic University
Public Lecture Series
Explore infinite opportunities with
Common Spatial Data Infrastructure (CSDI)**

Date & time: Wednesday 10 April 2024
3:00pm – 4:00pm

Speaker: **Sr Yue-chun Chan**
Head of Spatial Data Office
Development Bureau
Hong Kong SAR Government

Moderator: **Prof. Xiaoli Ding**
Director of RILS

Co-organisers: China Harbour – PolyU Joint Research Centre for Land Development
Research Centre for Artificial Intelligence in Geomatics
JC STEM Lab of Earth Observations

Location: Online via Zoom

Registration link: Please click [here](#)

Attendance is free.
An email proof of participation will be sent to participants upon request.

Contact us: Ms Cathy Kwok (RILS Secretary)

RILS Public Lecture Series

Explore infinite opportunities with Common Spatial Data Infrastructure (CSDI)

Sr Yue-chun Chan

Presentation Title

Explore infinite opportunities with Common Spatial Data Infrastructure (CSDI)

Abstract

The CSDI is a key initiative under the Smart City Blueprint for Hong Kong. It provides a map-based digital infrastructure as a one-stop platform to open and share the Government's spatial data. In late 2022, the CSDI portal (<https://portal.csd.gov.hk/>) and the first 3D Visualisation Map dataset were launched for public use. By allowing members of the public to search, view and download various kinds of spatial data from the portal, a wide range of possibilities for application development can be opened, digital economy boosted and quality of life improved.

RILS Public Lecture Series

Explore infinite opportunities with Common Spatial Data Infrastructure (CSDI)

Biography

Sr Yue-chun Chan possesses over 20 years of professional experiences covering engineering surveying, hydrographic surveying, cadastral surveying and geospatial data analysis/management.

Over the past a few years, Sr Chan has been actively involved in development of smart city enabling technologies such as the Common Spatial Data Infrastructure (CSDI) development.
